WHO I AM

I am a Frontend Web Developer and UX/UI Designer with a background in Audiovisual Production and Fashion Design. I have experience in creating attractive and functional user interfaces. My focus is on using modern technologies to develop intuitive and high-performance web experiences. With skills in HTML, CSS, JavaScript, and various frameworks such as React, Redux, and Next.js, I am committed to creating quality web applications that meet the highest standards of usability and design. I am proficient in agile methodologies and GIT. I have worked on both individual and group projects, which has helped me develop soft skills like good communication, teamwork, adaptability, and problem-solving.

PROFESSIONAL EXPERIENCE.

PROJECTS

Frontend Web Developer / Web Designer – Agroservice   May 2024 - Jun 2024
Freelance Experience. Asocaresa

Developed a web and mobile application designed to directly connect agricultural producers with e-commerce. The project aims to eliminate unnecessary intermediaries, allowing farmers to manage the sale of their products more efficiently and profitably.

Frontend: Vite, Chakra UI, JavaScript, React.

Full Stack Web Developer – PF e-latam   Jun 2022 - Jul 2023
Academic Experience. Henry Bootcamp

Our project is an innovative e-commerce platform designed specifically for the dynamic and vibrant Latin American market. This platform serves as a virtual marketplace where administrators oversee business operations, while users interact with a wide range of products, reviews, and ratings.

Front: React, ReduxToolkit, Css, Vite   **Back**: NodeJs, Express.   **Database**: PostgreSQL y Sequelize.

Full Stack Web Developer – Countries PI
Academic Experience. Henry Bootcamp (Individual Project)

In this project, I developed a SPA (Single Page Application) about countries and activities which can be created, assigned, and deleted. It also includes combined filters, pagination, and controlled forms, among other features.

Front: React, Redux, Css   **Back**: NodeJs, Express   **Database**: PostgreSQL y Sequelize
